Capital refers to the sum of financial assets that are required to produce goods or services. These funds can be used to initiate operations, meet daily expenses or grow and expand the business.

Leadership in business is the capacity of a company’s management to set and achieve challenging goals, take fast and decisive action when needed, outperform the competition, and inspire others to perform at the highest level they can.

Personal development is a phrase that refers to activities designed to improve talents, potential, employability, and even wealth. Any time you are consciously making an effort to improve yourself, you are participating in personal development.
